

- Effective tech leader with customer focus and tenacity to deliver high quality results.
- Passionate full-stack engineer with 18+ years of experience in software development.
- Hands-on architect with deep technical knowledge and design patterns expertise.
- Talented developer with remarkable design aptitude and special attention to details.
- Pragmatic programmer with strong analytical thinking and problem-solving skills.

Lead Applications Engineer - Dotdash Inc. New York, US 5/18 - Present

- Leading engineering teams in Spain and Eastern Europe, while coordinating with stakeholders in the US to boost the publishing organization.
- Spearheading development of an analytics dashboard, which provides 300+ users actionable insights and exploratory data about the company's brands.
- Building an end-to-end query builder framework for advanced search engines, used by analysts to create complex filters with a fluent interface.
- Designing reusable components and archetypes for full-stack applications, in order to empower developers and promote modern codebases.
- Playing a key role implementing cross-app features, while mentoring less-experienced peers to foster productivity and groom talent.

■ Data Visualization Engineer - Telefonica S.A. Madrid, ES 1/17 - 5/18

- Led the development of a suite of analytical products, delivering market insights and relevant information in relation to competitors.
- Built a tool to improve decision making on best rates, used by sales teams in 14+ countries to reduce the churn rate and increase loyalty.
- Implemented workflows and complex data visualizations, to guide product teams into enriching customer data and boosting local businesses.

IT Mentor - European Innovation Academy S.A. Lisbon, PT 7/16 - 7/17

- Provided advice and guidance to multi-disciplinary teams, offering an experiential learning opportunity with deep insight into the startup life.
- Coached students to consider and weigh potential consequences of decisions and actions, so that they avoid pitfalls and predictable surprises.
- Encouraged mentees to move out of their comfort zones and take risks when appropriate, in order to move forward and innovate.

Objective-C iOS	Java	Android	Ruby	Rails	Python	Django	JavaScript	Node.js	Groovy	Grails	Scala	Play)
-----------------	------	---------	------	-------	--------	--------	------------	---------	--------	--------	-------	------	---

Research Engineer - Amadeus IT Group S.A. Nice, FR 7/13 - 12/16

- Spearheaded development of a meta-search based travel website, empowering users to find the best flights and plan their trips collaboratively.
- Created a Rails-backed iOS application for managing travel expenses, featuring capture of receipts with OCR technology and e-mail reports.
- Played a major role in a virtual interlining project, allowing travelers to connect flights from competitor airlines onto a single itinerary.

Python	Django (F	Ruby	Rails	Objective-C	ios	JavaScript	Backbone	Marionette	Docker	MongoDB	Ansible	Logstash

m Software Architect - Amadeus IT Group S.A. Nice, FR 5/8 - 6/13

- Designed Java middleware architecture and developed reusable components on large-scale systems running 50+ million of bookings per month.
- Researched JVM-based languages and created a sandboxed scripting engine, enabling 3rd-party customization to products via a cloud platform.
- Supervised development teams throughout a division with 300+ engineers, while providing technical guidance and advocating best practices.

Software Engineer - HP Inc. Nice, FR 1/7 - 4/8

- Led the development of a vast variety of tools, having as main objective to facilitate the global data center consolidation process.
- Reverse engineered a legacy application written in ASP.NET and rebuilt it to leverage a rules engine for classifying documents.

Web Developer - Audatex GmbH Zurich, CH 10/5 - 12/6

- Developed claim solutions to facilitate the communication between insurances, body-repair shops and assessors in 40+ countries.
- Supported a module for placement of wrecks in an electronic auction, open to qualified professional buyers.

Application Developer - Atech S/A São Paulo, BR 9/3 - 9/5

- Developed a client-server application for managing flight operations, featuring a tracking module for storing real-time data.
- Built components to display aeronautical routes and weather satellite graphics on an interactive world map.

- M.S. Software Engineering State University of Campinas Brazil, 2004
- * B.S. Computer Science Pontifical Catholic University of São Paulo Brazil, 2003
